AN ACT confirming the title to certain lands.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the title to the land certified to the State of Iowa by the Commissioner of the General Land Office of the United States, under an act of Congress entitled "An act confirming a land claim in the State of Iowa, and for other purposes," approved July twelve, eighteen hundred and sixty-two, in accordance with the adjustment made by the authorized agent of the State of Iowa and the Commissioner of the General Land Office, on the twenty-first day of May, anno Domini eighteen hundred and sixty-six approved by the Secretary of the Interior on the twenty-second day of May, anno Domini eighteen hundred and sixty-six, and which adjustment was ratified and confirmed by act of the general assembly of the State of Iowa, approved March thirty-one, eighteen hundred and sixty-eight, be, and the same is hereby ratified and confirmed to the State of Iowa and its grantees in accordance with said adjustment and said act of general assembly of the State of Iowa: Provided, That nothing in this act shall be so construed as to affect adversely any existing legal rights or the rights of any party claiming title or the right to acquire title to any part of said lands under the provisions of the so-called homestead or pre-empted laws of the United States, or claiming any part thereof as swamp lands.

Approved, March 3, 1871.

[General nature—No. 62.]

AN ACT to create ports of delivery at Eureka and Wilmington, in California, and provide for appointment of deputy collector of Vallejo, California, and to abolish the office of surveyor of said port.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That Eureka, in the county of Humboldt, and Wilmington, in the county of Los Angeles, State of California, shall be, and are hereby, respectively, constituted ports of delivery, within the collection district of San Francisco; and there may be appointed a deputy collector of customs for each of said ports, who shall perform the duties of such office and receive the compensation of one thousand five hundred dollars per annum as salary.

Sec. 2. That any vessel of one hundred tons, or over, coming from or going to sea, may proceed directly to or from Eureka or Wilmington, and report, through the deputy collector of said port, to the collector of customs at San Francisco.

Sec. 3. That the office of surveyor of customs, created by act of Congress July one, eighteen hundred and seventy, for the port of Vallejo, in California, is abolished, and in lieu of such surveyor of customs a deputy collector of customs is hereby authorized to perform the same services and receive the same rate of compensation as is provided in this act for the deputy collector at the port of Eureka or the port of Wilmington.

Approved, March 3, 1871.

[General nature—No. 63.]

AN ACT to extend the benefits of the donation law of September twenty-seven, eighteen hundred and fifty, to certain persons.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That all persons who, at the time of settlement, possessed the qualifications prescribed in the fourth and fifth sections of "An act to create the office of surveyor general of the public lands in Oregon, and to provide for the survey, and to make donations to settlers of the said public lands," approved September twenty seven, eighteen hundred and fifty, and who made bona fide settlement upon the lands claimed by the Puget Sound Agricultural Company, in Washington Territory, within the time limited for settlement by said act and the amendments thereto, shall be, and are hereby declared to be, entitled to all the privileges and benefits of said act and amendments.

Sec. 2. That the rights and privileges of heirs and assigns under the said donation law, and the amendments thereto, shall be, and are hereby, extended to the heirs and assigns of the settlers named in the first section of this act.

Approved, March 3, 1871.

[General nature—No. 64.]

AN ACT to amend an act to revise, consolidate, and amend the statutes relating to patents and copyrights.

Be it enacted by the Senate and House of Representatives of the United States in Congress assembled, That that part of section thirty three of an act entitled "An act to revise, consolidate, and amend the statutes relating to patents and copyrights," approved July eight, eighteen hundred and seventy, which requires that, in case of application by assignee or assignees for reissue of letters patent, the application shall be made and the specification sworn to by the inventor or discoverer, if living, shall not be construed to apply to patents issued and assigned prior to July eight, eighteen hundred and seventy.

Approved, March 3, 1871.

[General nature—No. 65.]

AN ACT to authorize the restoration of James Belger to the rank of major and quartermaster in the army.

Be it enacted by the Senate and House of Representatines of the United States of America in Congress assembled, That the President be, and he is hereby, authorized to restore James Belger to the rank of major and quartermaster in the army to date from the day of his restoration to his said rank under this act.

Approved, March 3, 1871.

[General nature.—No. 66.]

AN ACT to restore Robert Boyd, junior, to the active list of the navy of the United States.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the President of the United States be authorized to nominate, and, by and with the advice and consent of the Senate, to appoint Robert Boyd, junior, now on the retired list, as a commander on the active list of the navy.

Approved, March 3, 1871.

[General nature—No. 67.]

AN ACT to amend an act for the relief of Jearum Atkins, approved July fifteen, eighteen hundred and seventy.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the act entitled "An act for the relief of Jearum Atkins," approved July fifteen, eighteen hundred and seventy, be, and the same is hereby amended so as to read as follows: "That the Commissioner of Patents be, and he hereby is, authorized to entertain and exercise jurisdiction over a petition of Jearum Atkins for the extension of letters-patent granted to him on the twenty-first day of December eighteen hundred and fifty-two, for a further term of seven years from the day on which such extension may be granted, and to hear and determine upon the said petition in the same manner and with the same effect as if the original term of said patent had not expired, and to grant or refuse such extension upon the same principles that govern his dicisions upon such applications when made in due course of law: Provided, That before granting any extension upon such petition, the Commissioner shall be satisfied that the same will inure to the sole benefit of said Atkins: And provided further, That no person shall be held liable for the infringement of said patent, if extended, for making use of said invention since the expiration of the original term of said patent, and prior to the date of its extension."

Approved, March 3, 1871.

Vice President Colfax has written to Mr. Whitelaw Reid reciting his recent illness and the cause thereof, which was not the excessive use of tobacco, but overwork. The Vice President further states that he has been subject to attacks of vertigo for several years.

The parade of the colored Grand United Order of Odd Fellows of Philadelphia on Monday was a very brilliant and successful display. The Philadelphia lodges turned out in full force to receive their brethren of New York and Princeton, N. J. In the evening they gave an entertainment in commemoration of the twenty-sixth anniversary of the order in Philadelphia. The addresses by Messrs Emery Burr, J. C. Bowers, Robert Jones and Peterson, were eloquent and impressive. We are glad to know that the order is so numerous and so prosperous.

The mystery of the murder of Mr. Tyndale at Springfield, Ill., remains unsolved, not even a clue to the terrible affair being yet obtained. The rewards offered ought to secure the co-operation of all officers of the law. The mayor of Sprinfield has offered $1,000; the citizens have offered $2,550; Mrs. Tyndale offers $1,000. Governor Palmer has employed special agents in order to discover the perpetrator of the crime, and the best detectives of Chicago and St. Louis have taken the matter in hand, but, from present appearances, the murderer is likely to escape all detection.

The Crops.

The wheat in Scott County, Ind., has been so badly damaged by the fly and rust that it is said not more than half a crop will be realized.

The Carthage (Ill.,) *Republican* of the 1st says: "Abundant rains have visited every portion of this county since our last issue, and crops are looking fine in every direction.

The Sparta (Wis.,) *Herald* says corn promises well. Comparatively few hops are cultivated in that region this season, but what few they are, are carefully cultivated and in flourishing condition. There is no doubt of a good crop.

The wheat crop of Mason county, West Virginia, and along the valley of the Big Kanawha, which but one short month ago bid fair to be the best ever known is now nearly ruined by rust and the "joint worm," scarcely a single field escaping.

Two fine orchards near Marengo, (Ill.,) have recently been destroyed by what is called the measuring worm. The trees look as if burned by fire. Other orchards in the vicinity have also suffered severely, and it is feared that the scourge will be wide-spread.

A Sardis (Miss.) correspondent in the Memphis *Ledger* regrets to state that the crop prospect is quite gloomy throughout the country, except on the high lands that escaped the recent overflow and floods exceed anything of the kind in their recollection.

The Cincinnati *Commercial* says: The corn in the Miami Valley and Whitewater is all up, and looks very prosperous. The wheat, oats and barley look as well as can be expected The potato bugs are about all gone. The fruit is all killed in the valley by rains and frost, while on the valley hill sides there is an abundance of fruit of all kinds.

The Lake city (Minn,) *Sentinel* says: "Crops are reported to be in a promising condition in the country around us. Late refreshing rains have advanced the late sowed grain, and mellowed the ground which was sowed earlier, and that, with the drought, had hardened and baked upon the surface. Corn has spouted well, and the last week has brought it forward rapidly.'

The Janesville (Wis,) *Gazette* says the seventeen-year locusts are appearing in lage numbers in the woods north of Janesville. Advices from the country indicate that the potato crop in that vicinity will be a total failure on account of the depredations of the potato bug. Already many of the farmers have replanted their potato fields to corn, as the young potato crop has been almost totally destroyed by these pests.

REPUBLICAN STATE TICKET.

FOR AUDITOR GENERAL:
COL. DAVID STANTON, of Beaver.

FOR SURVEYOR GENERAL:
COL. ROBERT B. BEATH, of Schuylkill

THE UNITY OF THE REPUBLICAN PARTY.

The State nominations have given universal satisfaction. The Republican Party is a unit from one end of the Old Keystone to the other. There is no lagging, no efforts to kick over the traces, no grumbling. Every leader feels the importance of the responsibility which rest upon him and shows a disposition to push on the good work. With such a universal good feeling and determination to act harmoniously, while the Democracy are distracted and demoralized by their "New Departuee," there can scarcely be a doubt that the Republican State Ticket will be elected by a large majority at the approaching October election.

To make the triumph complete in the various counties, it will be necessary to select good and available men for the different offices to be filled, and we hope that nominations will be made for all places to be voted for. There is nothing like a complete ticket. It is generally in the selection of county candidates where the dissatisfaction arises that effects the general ticket. Men are frequently nominated by trickery, who are unpopular and consequently great dissatisfaction arises. The result is that men who do the work generally, become luke-warm, refuse to work, stay away from the election or vote the Democratic ticket. Such contingencies must be avoided. No man should be encouraged who will resort to any other than fair and honorable means to secure his nomination. We despise trickery and double dealing as much in politics as in any other relation of life, and we hope the day is not far distant when the honest voters will avoid a dishonest politician as they would shun a plague. When the County Convention assembles on the 15th of August next, we hope that men will be presented who will have the confidence of the masses of the party, and that the really meritorious will be nominated. We want to roll up an old fashioned Republican majority in Huntingdon county for the whole ticket this Fall, and if good and popular men are placed in nomination we feel confident this will be done. Let our party leaders cultivate harmony and good feeling and bring about the nomination of men who are not personally objectionable, and we will teach our opponents that the Republicans of Huntingdon county are as strong and even stronger than they ever were before, and that they mean to sustain those principles, at all hazards, which are the political rock upon which they have built, and upon which they are determined to rest their political faith.

BEDFORD COUNTY POLITICS.

The Republican Convention of Bedford county, assembled on Tuesday, the 13th inst., at Bedford, and declared in favor of the nomination of Hon. Wm. M. Hall, for President Judge of the XVIth Judicial District, by a vote of 35 to 21 for Hon. Samuel L. Russell. The contest between these gentlemen was conducted, by their numerous friends, in a very animated manner, so much so that the county was claimed by both parties. Mr. Russell has long been a favorite with the Republican Party of Bedford county, and had the people not come to the conclusion that it would be great injustice to Mr. Hall to set him aside, so soon after having received the appointment at the hands of the Governor, without any good and sufficient reason, we believe he would have carried that county by a considerable majority. Franklin county instructed the same day for Judge Hall, and on the Saturday, the 20th inst., Fulton did likewise, unanimously, which secures his nomination by the District Conference.

Capt. John S. Stuckey, of Napier, an excellent man, was nominated for Associate Judge. We do hope that the Captain will secure an election. He has been very unfortunate in his political aspirations heretofore, and we pray that the tide may turn in his favor. John Geller, of Juniata, a very good man, was nominated for Treasurer. Adam Haderman, Esq., of South Woodberry, one of the most upright and honest citizens in the county, for County Commissioner. D. Hershberger, of Snake Springs, for Poor Director. No better selection could have been made. We expected our old friend, Adam Ullery, to be the fortunate one, but he was doomed to defeat again. Mr. W. H Avey, of West Providence, for Auditor and Hiram Blackburn, of St. Clair township, for County Surveyor. Both are excellent men. If this ticket cannot be elected it will not be owing to the fact that it is not made up of the best material. The Republicans *should* elect their ticket this Fall. There is really not, at the outside, more than one hundred Democratic majority in the county, exclusive of the newcomers on the railroad, who ought to overbalance that number very readily. *We expect Bedford county, with such a ticket, to go Republican this Fall!*

☞ At the meeting of the Republican State Central Committee, held at the Logan House, in Altoona, on last Wednesday, P. M. Lytle, Esq., of this place, was chosen one of the Secretaries of the Committee by a very complimentary vote. We congratulate Mr. Lytle on his good fortune, and we feel well assured that he will make an efficient Secretary, and that no means will be neglected by him, so far as within him lies, to secure the triumph of the Republican party. Dr. Sidney Thompson, of Spruce Creek, and William Lewis, Esq., of this place, were added to the Committee for this county.

☞ The BLARE of Francis P. Blair is no longer heard in the land. Is he "blowed out" or has he "departed?"

☞ No paper will be issued from this office next week. Our employees desire to have a holiday, in accordance with a time-honored custom.

☞ Vallandigham has gone to an untimely grave and the Democracy have "departed." The funeral of the latter will take place on the second Tuesday of October.

☞ The Chicago *Times*, the leading Democratic organ of the West, very appropriataly puts the nomination of the Pennsylvania Democracy under the head of "Obituary."

☞ Since Vallandigham's last "departure" the Democracy appear to be in a worse dilemma than they were at his first. Some wicked wag suggests that they had better go and do as he did. Horrible!

☞ General McCandless, Democratic candidate for Auditor General, it is said, suffers from the effect of a Democratic (rebel) bullet. He will suffer much worse from the effects of Republican ballots about the second Tuesday of October.

☞ They had a little shake of an earthquake down in New York city, the other day, and the Democracy trembled. If the New York Democracy don't improve we wouldn't be surprised to read, some fine morning, that it had shared the fate of the troop of Korah.

☞ Our readers, no doubt, will be gratified to learn that our contract with the Government, for the publication of the United States Laws, will be completed in the next two or three issues of our paper, at farthest. We will then be able to give them much more live reading matter.

☞ Hon. John Scott was home on a visit to his family on last Saturday and Sunday. He looks much improved since the close of the Session; whether it is only in the style of his dress, or the cut of his beard, or the shape of his hat, we do not know, but there is certainly a great improvement.

☞ Ed. Scull, of the Somerset *Standard*, thus plants a stunning blow in the tenderest spot of his neighbor the *Democrat:*

> "A few years since the Somerset *Democrat* was embellished with a cut of 'Scull swallowing a nigger.' We suggest that it again be produced for the edification of the Democrats of this county who are now, by their State platform, ordered to attempt the same feat. It would happily illustrate the immutable and unchangeable principles of the Democratic party, and at the same time prove, as Sam Patch did, that somethings can be done as well as others."

☞ We notice by the last *Monitor* that at least one Democrat wants the nomination for Sheriff. He announces himself as a candidate. We think there are several Republicans who desire a similar nomination, but up to this time we have no authoritative announcement of the fact. It is time that announcements were made.

☞ We had the pleasure of a visit, last week, from W. J. Jackman, Esq., of the Mifflintown *Democrat and Register*. We were very much gratified to make his acquaintance as we had failed to do so during the late Editorial Excursion, where it was supposed that the acquaintance of all in the party would be made, which was far from being the case. Come to see us again, and bring Bonsall along. String always out!

☞ We have received a copy of the Council Bluff's *Daily Nonpareil*, of the 10th inst., which advocates the nomination, of our mutual friend, John H. Keatley, Esq., late of Hollidaysburg, but now of the former place, for Lieutenant-Governor of Iowa. We would be very much pleased to hear that our friend had received this merited compliment. He is eminently qualified for the position, and if nominated will surely be elected. We wish him all the success in the world.

☞ A placard was swung across the street, from the headquarters of the Chairman of the Democratic County Committee, in Bedford, at last election, inscribed: "White Man's Party!" "White Man, get your tickets here!" The junior of the *Inquirer* reminds the late "departed" of this fact. We would suggest that the inscription this fall read thus: "Votes wanted to carry the State!" "Black and White men get tickets here!" Won't it be fun to see the "nasty niggers" accommodated with tickets at that shop! But he will be the last run of shad that will apply there, you may rest assured!

NOW AND THEN.—It is amusing to witness the twisting and swerving of the "old line" Democrats, relative to the Vallandigham platform adopted for their future government and standing in the party. In order that our readers may fully understand the "Now and Then" policy of the party, we give two planks from their platform of '68 and '71.

In the Pennsylvania State Convention held in 1868, the following resolutions was unanimously adopted:

> *Resolved*, That the Democratic party of Pennsylvania is opposed to conferring upon the negro the right to vote, and we do *emphatically deny that there is any right or power in Congress or elsewhere to impose negro suffrage upon the people of the State in opposition.*

In the last State Convention, the following was adopted by a decided majority:

> *Resolved*, That we recognize *the binding obligation of all the provisions of the Constitution of the United States as they now exist, and we deprecate the discussion of issues which have been settled in the manner and by the authority constitutionally appointed.*

This is going back on the record with a "vengeance." No wonder "old line" Democrats who have fought all their lives against negro suffrage, squirm and protest against proping up their platform with a piece of sound and well-seasoned timber from the old Republican platform.—*Ex.*

Letter from Pittsburgh.

PITTSBURGH, June 26, 1871.

MR. EDITOR:—An account of a trip up the Pittsburgh & Connelsville Railroad may not be uninteresting to your readers, as its progress, from the day the first shovel of dirt was thrown up to the day the first train passed over the entire length of the road, was watched, by *some*, with jealous eye, by *others* with an earnest desire for its complete success, by *all* with not a little interest. Through all opposition it has finally passed to a grand success, and in spite of the formidable monopoly will attain to a first-class road. It passes through a section of our State unsurpassed for its mineral wealth, and will open up to the world, with the aid of its branches, untold mines of coal and iron ore, while its timbers will be shipped to every portion of our land to be used in the manufacture of every thing from the noble ship that ploughs the briny deep to the smallest household article. The success already attained is, in a great measure, due to the indefatigable energy of the able President, Mr. Ughart, and should his health and life be spared there can be no doubt of the road becoming all that its most earnest friends would wish for it. The road is as smooth as could be expected, and we believe it to be perfectly safe, except, perhaps, the trestle work at Shoo-fly Bend—which however is not on the main line, but was necessitated by the delay in finishing Brook tunnel, and is therefore only temporary.

There are many points of interest and importance on this line we would like to speak of, if we had space, (for we fear we might trespass upon the laws of the United States,) but we will limit ourselves to a few of the more prominent, and only to those on the extension or lately finished part of the road.

Confluence, an entirely new place, situated about midway between Pittsburgh and Cumberland, promises to be to the P. & C. R. R. what Altoona is to the P. R. R., and is most admirably located for the purpose. If half the expectations of those who have invested in property and business are realized, this place will be of great importance. Ursina, its neighbor, one and-a-half miles distant, is also a candidate for prominence in the history of the road. A generous rivalry existing between these places promises unusual prosperity to both. Next on the list we have Meyer's Mills or Meyer's Dale, as we believe it is now called. This latter place is rapidly improving, and has a position that entitles it to a more extended notice than we are able to give at this time.—From this point we have a branch road—the Salisbury & Baltimore R. R.—in process of building, and when completed will develope the finest coal to be found in Southern Pennsylvania.

Salisbury is a small town of about 300 inhabitants, located about nine miles from Meyer's Dale, and will be the terminus of the S. & B. R. R., spoken of above. This is the place, also, where whisky was at one time sold by the yard. An old German, who kept a small grocery store, was prevented from retailing the ardent in less quantities than a quart. Here was all his profits gone by one sweeping statute, passed about that time, (50 years ago), and the German at once devised this means of avoiding the provisions of the law. He procured a square yard stick and bored a hole into it and in this he measured his whisky, to the great relief of his declining business and the nourishment of his customers. The Justice of the Peace, whose opinion was law in those days of submission and honor to magistrates, pronounced the plan as not in violation of the statute—inasmuch as the legislators had not yard measure in their minds when they framed the law. Salisbury is the home of Senator Findlay, and although much advanced in years is still young. His friends will at all times find an open door and a hearty welcome by the Judge, as he is called at Harrisburg.

RICHARD.

Letter from Mississippi.

JACKSON, Miss., June 19, 1871.

MR. EDITOR:—Being but a sojourner in the "Sunny South" our thoughts naturally revert to the "scenes of our childhood," or in language more pointed, to Huntingdon county.—May Heaven's choicest blessings rest on her and hers.

Nothing is more suggestive, of the cool, delightful, bracing atmosphere, one is sure to meet with, in Huntingdon county, at this season of the year, than the, well—the direct opposite of "all sich" that we are enduring in the State of Mississippi at the present time.—During the earlier Spring we lived a sort of semi-aquatic life, in consequence of the constant rains that fell, but about the first of June "Queen Summer" took matters in hand and apparently incensed at having been baffled so long in her "warming influence" went to work with a vengeance and "reconstructed" the entire business. Grammarians in this locality would be at a loss how to impress on the "young idea" the different degrees of comparison, taking the state of the weather as the basis of illustration, as it is, and has been, most decidedly of but one degree, the superlative: hottest.

Owing to the large amount of rain that fell during the Spring the lowlands throughout the State were at the time flooded over, and the *debris* of the overflows, consisting of river mud and such other matter as the resistless element would be likely to sweep along in its course, is still (for the most part) lying where it was left by the current, and is, at least during the present heated term, disagreeably suggestive of malarious diseases. Your humble correspondent is decidedly of the opinion that if this portion of the State escapes an epidemic this summer it may safely consider itself under the protecting wing of Providence.

Crops are very backward in this section.—The planters have little hope of even an average yield of cotton; but they say the real test is yet to come. There has been more cotton planted in this State this year than in any preceding one since the war, and though the prospects look gloomy now, a favorable summer may retrieve all and give a splendid crop.

AMERICUS.

That Platform.

It is not likely that the platform will be often referred to in the present canvass by the Chairman of the Democratic State Central Comittee or any of the other seventy-six members of the Convention by whose votes it was adopted. It is already dead and damned, and no attempt will be made to resuscitate it. It is condemned by the soundest Democrats at home and abaoad, and not a chirp in its favor is made by any Democratic paper in the State. The West Chester *Jeffersonian* says:

"The Democracy of Chester county are almost a unite upon this question, and rather than allow these tricksters to destroy the party, they will consign them to an ignominious grave."

The Bloomsburg *Columbian*, supposed to be the organ of Hon. Charles R. Buckalew, says:

"By some surprising means a small majority was obtained in our State Convention and in that of Ohio, to endorse this suicidal and disgraceful policy. The subject was studiously kept from the people, and a majority of our *repsentatives* were suddenly transformed into *dictators*. * * * We warn the men engaged in this business not to attempt to clog the candidates with this fatal platform. Destruction will follow if they do. Let the ninth resolution go simply as a vague opinion of seventy-six panic stricken men in a convention, and let it drop there still-born. If the question requires decision at all, let it be attended to next year in the election of delegates."

We quoted a spicy paragraph from Meek's Bellefonte *Watchman* yesterday, and if we had Bratton's Carlisle *Volunteer* at hand, we might find more of the same sort. There are, besides these, other Democratic papers equally able and influential, arrayed in opposition to the ninth resolution. Outside the State we find opinions like the following expressed by the Democratic press:

The Atlanta (Ga.) *Sun* says:

THE NEW DEPARTURE—AWAY WITH IT.

Party names weigh but little with us. We look solely to principles in judging of the true and real character of any party; and looking to the principles announced by the "New Departure" Democrats—so-called—of Pennsylvania and Ohio, we confess that we see no difference between them, so far as relates to the XIVth and XVth Amendments to the Constitution of the United States, and the principles on the same subject of the ruling dynasty at Washington, whether they be called Republicans, Radicals, Jacobins or Imperialists. The new movement seems to us to be nothing but an open abandonment of the old creed Democratic party in its most essential parts, and the full espousal of the doctrine against which that party has warred since the days of Jefferson. This is our independent position upon the subject.

The *National Intelligencer* says:

"The vital objection which the *National Intelligencer* has to this doctrine is that it practically consigns the Democratic party to consent defeat *in all general or Federrl Elections*. As a national party the Democracy will cease to exist the moment it adopts the New Departure doctrine."

The Baltimore *Gazette* says:

"The great blunder which the Northern Democracy makes is setting up a platform as a mark for its antagonist. The outside party wants no platform. *Its policy is to get in.*"

But the best idea is advanced by the Memphis (Tennessee) *Appeal*. It suggests a burlesque platform, the last plank of which is:

Resolved, That the battle cry of the Democratic party in the next canvass shall be "Put me in my little bed."

Yes, truly, after the prodigious labor of the party and its ridiculous results, it needs rest and sleep. Let it go into its cradle for a while and sing, "Rock me to sleep, mother."—*Har. Telegraph.*

MURDERED IN CHURCH.—A private letter gives the following additional facts concerning the murder of a Baptist minister in an Arkansas puplit. The affair occurred in Scott county: He was murdered in the church, a few weeks since, by a notorious scamp. The name of the minister was Deschamps, and a Royal Arch Mason, a man esteemed and beloved by all who knew him. Both Radicals and Democrats are very much excited and incensed at the outrage. About two years ago Deschamps held a protracted meeting, at which several joined the church. At the water's edge, on the day set aside for baptism, Deschamps called on the brethern to sing, and as they seemed backward and tardy, the invitation to sing was extended to the congregation, and the man, subsequently Deschamps, murderer, with one or two of his associates near by, commenced singing comic or vulgar song, "The old gray horse," etc. They were reported to the grand jury, and it cost them $25. On the day of the murder the young man walked into the church, and, in the presence of two gentleman and several ladies, killed Deschamps, drove the men and women out of the house, then went back and shot two more balls through his (Deschamps') body and one through his head. The young man made his escape and is still at large. Large rewards are offered for him by the "Dardanelle Association," the Masonic fraternity and probably by the State. Deschamps was among the first in rank with the Baptist preachers in Arkansas.

AGRICULTURAL IMPLEMENTS.

The excelsior Reaper and Mower, manufactured by H. J. F. Seiberling & Co., Akron, Ohio, is no experiment but a tried reality. Having been before the farmers for eleven years, and 50,000 of them now being in use, speaks well for the machine. It took the first premium at the trial of machines at the Agricultural College, Centre Co. Pa., July 27th and 28th, 1870.

The Kirby, Champion, Keystone, World, Dodgeself Rake, Ohio Harvester, Hubbard and the Excelsior were represented. The Excelsior took the first premium as the best dropper and as the best machine on account of simplicity of construction, lightness of draft, and other important features in the machine. The undersigned is prepared to fill orders for the above machines at short notice. Send in your orders early as our supply will not meet the increasing demand. I can supply farmers wanting Hay Forks, with the best Fork in the market (McFaddens). Orders by mail for either of the above articles will receive prompt atention. Orders for machines left at Wharton & Maguires hardware store will receive prompt attention. Pamphlet and price list sent free by addressing T. W. PRIVATE RESIDENCE FOR SALE.

Having gone into business at this place I propose to sell my private residence at Bedford, Pennsylvania, at private sale.

It is unnecessary for me to give a description of it to those who are acquainted with it, and to those who have not seen it, and who desire to purchase a neat and complete residence I would say go and examine it. The house was entirely overhauled and renovated but a year or two ago. It is located upon a full lot of ground, 60 feet by 240, on East Pitt street, and the corner of an alley leading to the Steam Mill, which makes it one of the most public places in the town in a business point of view. The lot is under drained by numerous drains, and is second to none in the place. It has produced all the garden vegetables used by my family for years. In addition there is a flower garden and a considerable quantity of excellent fruit. There is a perpetual insurance upon the house.

SABBATH SCHOOL CELEBRATION AT ALEXANDRIA.—*Mr. Editor*:—The Presbyterians of this place witnessed a gala-day on Saturday last, in consequence of a Sabbath School Celebration which took place in "Piper's Woods" a short distance from town.

As the hour for assembling approached, groups of old, young and middle aged were seen emerging from almost every direction, with baskets of provisions; all tending their footsteps towards Porter's drug store, where the eatables were left to be taken to the grove in a wagon.

At nine o'clock the bell was rung and all participating, met at the church, formed in procession and marched to the grove.

The procession was headed by the officers of the school. Next were the female classes, arranged according to rank, and following them the male classes observing the same order.

There were two banners in the procession; one born in front of the ladies, on the one side of which was the name of the school and on the other side the inscription "God is Love." The other, carried in front of the gentlemen, exhibited, in connection with the name of the school, a picture of the open bible.

On reaching the grove all were requested to be seated, and the exercises of the day were opened by singing "Happy Greeting" after which a prayer was offered by the Superintendent, Mr. Porter.

Mr. Porter, in a brief address stated the object for which they had come together. He reminded the children of the source from which come all the blessings they enjoy, and admonished them that while they engaged in the festivities of the day they should ever remember "Thou God seest me." The little boy keeping in mind this important truth and the one inscribed on that banner would not be guilty of falsehood, profanity or any wicked and sinful practice. At the conclusion of his remarks the school joined in another piece of music.

The superintendent now introduced Mr. S. P. M'Divitt who had previously been selected as orator for the occasion. The speaker said he had very reluctantly consented to speak, but since some one must necessarily be sacrificed, concluded it might as well be him as anybody else.

He commenced by referring to the good feeling that should characterize the assemblage, with external circumstance so favorable. "He must be a churl indeed who feels dissatisfied with himself or anything around him on such a pleasant morning as this."

"While everything inanimate is so eloquently praising God, should not we who are endowed with powers of mind show forth our gratitude for the continual blessings we enjoy."

He thought the celebration eminently an occasion for reviewing the past, especially its blessings, and for making resolutions for the future.

Without stopping to notice the general and continued causes for gratitude, he would speak of a few special causes, First, we had been preserved as a Sabbath School. Over in Germany and France many a happy Sabbath school band that met a year ago had since been broken up by the destructive arm of war. We should be thankful for the blessings of peace.

But our gratitude should also rise for individual preservation.

Other years death had entered our circle and born away here a pupil and there a teacher. The Sabbath School of a sister church had lately been robbed of a beloved teacher. This year had put his great arm lovingly around us and warded off every dart which the Destroyer may have aimed at us, and today we are superintendent, teachers and pupils, an undivided band. He hoped it would be so when we should be assembled before the Judge of the world.

After speaking of the influence we exert upon those with whom we associate, and the effect of their influence upon us, and our great responsibility on account of that influence; and of the importance of placing before us a high ideal of excellence, he closed by saying that as he looked into the smiling happy faces before him he was led to think of the future of these children.

He remembered the wrecks of humanity he had seen; the drunkard, the sensualist and the low degraded of every form and when he reflected that these were once as bright, joyous and happy as those before him, and with as little thought of falling as they, he was forced to ask whether such would be the sad fate of any little boy in his hearing.

He appealed to them to avoid every step that tended in this direction, and as total abstinence was the only safeguard against the fate of the drunkard, he admonished them to "touch not, taste not, handle not the wine."

Mr. M'Divitt acquitted himself very creditably, and received the just plaudits of all present.

Mr. Porter said that although he had often thought of presenting a pledge of total abstinence to the Sabbath School, he had neglected it, but since the subject had been so appropriately and forcibly presented by Mr. M'Divitt, he would do so now, and if all signed it and kept it, it would be a very profitable meeting. So, while a couple of pieces were being sung, a pledge was passed around and was signed by nearly every one present.

These exercises being over, the party separated into different parts of the grove to engage in various amusements, such as are indulged in by pic-nic parties. After an hour or so had been spent in this way dinner was announced.

Although we could not say that "the table legs groaned beneath the luxuries of nature," the dinner was none the less relished because of the fact that the table-cloths were spread upon the ground. There were viands to tempt the appetite of the most fastidious, and in abundance to satisfy all present.

Dinner over the amusements of the day were resumed, and in these the old seemed to take as much pleasure as the young, many of them participating in the games that were played with as great a relish as did the lads and lasses. These were continued until a late hour in the day, when a threatening shower dispersed the happy party, each of which felt that the day had been pleasantly and profitably spent.

BLACK SLATE.—Persons who do not understand mineralogy, are frequently deceived by Black Slate, believing it to be the outcropping of coal. A gentleman laboring under this delusion forwarded, in a letter, a specimen of this slate to the editor of the *U. S. Railroad and Mining Register*, who disposes of all notions of this kind in the following comment:

"The specimen enclosed in this letter is a small fragment of black slate, and comes from a bed of clay charged with a certain percentage of carbon. If it were a good deal richer in carbon than it is, it would be a very poor coal—a coal which would indeed, but burn with great difficulty, and leaving such a quantity of ashes as to be practically worthless.

"Amberson's Valley, is one of the two upper end divisions of Path Valley, which opens into the Cumberland Valley at Louden, near Chambersburg. These valleys are alike geographically. They contain the same rocks. One and the same mountain (known by many names, Cove mountain, Tuscarora mountain, Dividing mountain, Horse Valley mountain, or North mountain), surround them, forming a continuous wall, except where streams make breaches through it, like the gap at Concord, and the gap about Mount Pleasant Furnace. The bottoms of these valleys are limestone, of Silurian age, an age much older than the age of the Coal Measures. The sides of these are slopes of slate; and the enclosing mountain is a wall of white sandstone. In these very ancient slates, above the limestone of the valley and below the sand rock of the mountain, are traces of vegetation, or at least of organic life; but too scanty to make a coal bed. Precisely such coaly clay as was sent in this letter has been found in a thousand other places where this slate formation comes to the surface. It comes into the State at the Delaware Water Gap, and runs past Harrisburg, through Maryland and Virginia into Tennessee. It encircles not only Path Valley, but Kishacoquillis, Brush Valley, Nittany Valley, Morrison's Cove, &c., &c. Everywhere along its outcrop a little search will reveal thin layers of this black coaly clay; and hundreds of thousands of dollars have been thrown away by farmers in following it into the ground to see if it would turn into a good coal bed. But it never does, and unless human experience is worth nothing, it never will. The fact is, in that early age the proper conditions for the deposit of workable coal beds did not exist; and it is even doubtful whether the carbon in this clay came from plants. There are some good reasons for believing that this clay was blackened by a charge of *animal* carbon. But be this as it may, the geology of this slate formation has been too thoroughly and extensively studied, and too many pits have been sunk in these very layers of black slate, to leave any hope alive of ever finding coal in Amberson's Valley, or in the other similarly constituted valleys above mentioned."

THE gutter on Allegheny street from Carmon & Cunningham's corner to a point opposite the Exchange Hotel is in a very filthy condition. The stench which arises from it is enough to breed cholera.

A CITY IS KNOWN BY ITS JOURNALS.—If a traveler wishes to know the character of the citizens of any city he may learn it nearly by simple inspecting its daily journals and finding out the extent of the circulation of each. If he finds the religious papers tolerant and liberal in sentiment, the political journals respectful and moderate in censure and criticism, the commerical papers truthful and sincerely devoted to the welfare of the mercantile classes, the newspapers careful in their selections, diligent in pursuit of news, scrupulous about reprinting trash and the production of what is scurrilous and indecent and careful at all times in the choice of language, and if he finds, moreover, that the journals of a city are at all times courteous in their tone and words towards each other, he will conclude that he is in a city made up of ladies and gentlemen, people of good taste, fine preceptions, sound principles and good manners. But if, on the contrary, he finds the religious papers carping, censorious, spiteful and abusive each towards all other sects than the one which it represents; if he finds the organs of political parties filled with hard language each toward the opposing party, indiscriminate in its use of abusive epithets, diligent in its search after libelous adjectives, constant in inputing base motives, always putting the worst construction upon every act and speech of the candidate or office holders of the rival party, and always using language in formal essays which would not be tolerated in a lady's parlor; and if he finds daily in the columns of the papers devoted to news, to commerce and to business masses of vapid trash, obscene jests and allusions, details of filthy criminal trials and slanderous communications, and if he sees that each journal was perpetually finding fault with and trying to damage all the others he would certainly conclude that he had fallen into a nest of caitiffs, a den of thieves and blackguards, a city destitute of honorable and high minded men and women. "By their fruits shall ye know them." The journal is the product and efflorescence of the enlightenment of any community. Our traveler would straightway gather up his luggage and hasten away as from a city smitten with pestilence.—*Exchange.*

WHAT LEGS CAN DO; OR HOW A DETECTIVE WAS FOILED.—Last Saturday morning, between the hours of 7 and 8 o'clock, a gentleman entered the Barber Shop under the Jackson House, and was followed by the Barber, who commenced pulling off his coat for the purpose of attending to the wants of his supposed customer. He was coolly informed that his visitor did not want any tonsorial or other operation, but he wanted a quiet word with him and he was blandly invited up stairs into the hotel to receive it. The Barber was not a little agitated at this singular request, but he suppressed his agitation as much as possible, and accompanied him into the Jackson House. What occurred at the interview "deponent saith not," but a few minutes later the Barber was seen descending into the street at a pace that would have thrown even the Fast Line into the shade, with the gentleman, who was no other than a Philadelphia Detective, hard upon him. Into Mr. Africa's Confectionery dashed the Barber, back through the first room, into and through the second, the window was open and through the window he went, pell-mell, helter-skelter, in less time than you could say "Jack Robinson." The Detective halted, wheeled and ran around Broad Top Corner, in time to see the Barber go up the Canal at better speed than is made by fearless navigators of that raging highway. The Detective began to yell at the top of his lungs "Stop thief!" "stop thief!" but the Barber didn't stop, nor did anybody stop him. The Broad Top train had just left the depot and was moving off gently towards the bridge. The Barber saw his opportunity, doubled his speed, seized the platform and clambered up and waved a gentle adieu to his bungling pursuer. It is said that the Detective was very much disgusted with the whole affair and when the 8.53 train came down he left for the east. It is reported that there is a woman in the case.

A RAID ON THE ADAMS EXPRESS OFFICE.—On Saturday night last, some unknown parties forced open the front door of the Adams Express office, in this place, with a chisel and entered. They blew up the safe but did not succeed in getting anything of value. The agent, Mr. K. M. King, had taken all the funds out of it during the evening before and secured them elsewhere, for which he is entitled to great credit, as a set of expert burglars, as these were, would go through a safe like the one in question in less than ten minutes. In fact it was scarcely an obstacle. They first sought an entrance from the rear of the building, but an inside shutter prevented ingress from that point. While attempting to effect an entrance here they threw down a door leaning up against a fence on an adjoining building which was distinctly heard by D. Caldwell, Esq. The chisel with which they pried open the door was found in Mr. McMurtrie's yard, which, when fitted to the marks, corresponded exactly. A large sledge, such as are used by blacksmiths, was left in the office, with which they intended to demolish the safe provided it did not yield to powder, but it was entirely unnecessary in this instance. The blast was made under cover of a passing train of cars in all probability. During Saturday Mr. King had $4,000 on hand, but they did not get a single dollar of it.

MORRISON'S COVE RAILROAD.—We learn from Mr. Wilson that his surveys of Morrison's Cove have been completed, and a line been determined upon past Martinsburg to the ore beds in Leather Cracker Cove. The road from Hollidaysburg to McKee's Gap, 8 miles, is finished and in running order. It turns the end of the mountain at Hollidaysburg, crosses the Juniata river below the reservoir, and enters the gap near water level. From this point to Leather Cracker measures 13 miles, with a branch, half a mile long, to Martinsburg. Mr. Wilson's original line intended McKee's Gap at a much higher level, in order subsequently to gain grade in ascending the ravine of Plum Creek; and it then kept around the flank of the Loop mountain, to north and east of Martinsburg, above the village, so as to have a free run along the central ridge of the valley, southward to the gap of Yellow creek, and so to Broad Top. But local interest, especially those connected with the large deposits of ore at Bloomfield Furnace, demanded a location more to the west, involving heavier grades. The line settled, therefore, leaves Plum Creek, after getting through McKee's Gap, and keeps up Rock Run, passing by Martinsburg below and west of the village. The 13 miles of located line are all under contract, and the ores of Leather Cracker Cove will probably be seen passing Hollidaysburg, on their way to the Cambria Iron Company's furnaces next fall.—*U. S. R. R. and Minning Register.*

IS THE JUDGESHIP A POLITICAL OFFICE?—Thad. Banks, Esq., in his "address" to the recent Democratic Convention in Blair county, said of the office of President Judge: "It is not a political office." And Judge Taylor, in his Altoona letter, agreeing upon that question with the gentlemen addressed, says:

"To say it is NOT A "POLITICAL office," is only to enunciate A TRUISM, as every one feels. It is a simple self-evident truth, which no process of reasoning could make more plain. In the practical working of our political system, POLITICAL PARTIES, organized to carry out in matters of government, the measures which constitute their political creed, find it necessary to select those as candidates for that purpose who will represent their views. It is a necessary and proper qualification for a candidate, that he be of and true to his party, and carry out its measures. This is plain enough. But how *it* is, or can, or should be, A QUALIFICATION FOR A JUDGE, who should know no man or party—whose only business it is to hold the scales of justice with a steady hand and unsuspected, between men of all parties and creeds, political or religious, and mete out 'equal and exact justice to all," TO BE A PARTIZAN—or that he should be chosen upon party principles, through corrupt party appliances, in heated and demoralizing political contests—is what common people are unable to comprehend; what common sense intuitively rejects as absurd; and what all judicious and reflecting minds, most deprecate. Accordingly, we find it to be the prevailing sentiment of the masses, the common sense of the public, that Judicial officers should be kept above the sphere of party politics; and no intelligent man, of any party, regards himself, or regards any one else, as compromising his political principles, or his party status, by casting off all party trammels, and following out, in this most impartant exercise of the elective franchise, his conscientious convictions of duty."

VERY COMPLIMENTARY.—Henry W Fisher, Esq., Superintendent of Common Schools of Bedford county, in a letter to the Bedford *Gazette*, from Schellsburg, speaking of the closing exercises of his Normal School, at that place, pays the following handsome compliment to a Huntingdon county student:

"Perhaps the best on the programme, at least that which showed the greatest amount of original thought, was "Influence," an oration by Jno. Fleck, of Puttstown, Huntingdon county. Many of the passages in this oration, showing the influence of inanimate on animate objects, of man on man, were very fine. The whole was well written and as well rendered The young orator won golden opinions from his audience. His effort showed that he is no vain searcher after truth in the great store house of knowledge—creation."

MARRIED.—Friend G. A. Smith, Esq., was married on last Tuesday morning, by Rev. Linn, in the Methodist Church of this place, to Miss Emma Brosius, a most accomplished and beautiful lady. The bride's maid, who supported the bride was Miss Brosius, of Maryland; and the groom's man, was Hon. William Skinner, of Chambersburg.

After the ceremonies were over, the bride and groom were congratulated by their friends, after which the audience dispersed, and the bride and groom, started on an extended bridal tour, to New York, Canada, Niagara, Vermont, New Hampshire, and Massachusetts.

We wish the happy couple joy, for none more truly deserve it.—*Fulton Republican.*

THE counties of Cumberland, Adams, Fulton, Franklin, Bedford, Huntingdon, and Blair, comprise the seventh Normal School district of this state. The citizens of Shippensburg and vicinity having complied with the acts of Assembly made and provided in such cases, have succeeded in having located the Normal School for this district near that town, and have given the institution the name of the "Cumberland Valley State Normal Sceool." The building is to be 212 feet long and 151 feet 8 inches wide. The foundation is already laid. The corner stone was laid on Wednesday, May 31st, with appropriate ceremonies, by the Masonic fraternity and an able address from Gen. McCandless, Democratic candidate for Auditor General.

THE REASON WHY.—The immediate cause of premature fading or blanching of the hair is an obstruction of the oil vessels which afford the coloring matter. The remote cause may be general ill health, trouble of mind, etc. Hence, in order to restore its natural color and beauty the oil vessels must be restored to their normal condition. It is on this principal that NATURE'S HAIR RESTORATIVE is compounded, and it has proved a complete success, wherever faithfully applied. It is not a poisonous dye, consequently the effect is gradual, and in severe cases two or three bottles are necessary to produce the desired result. See advertisement.

BOY THROWN INTO THE AIR.—On Saturday morning, between six and seven o'clock, as a team was passing Marysville station, the fast line came dashing along and struck the wagon, breaking it into innumerable fragments and sending one of the occupants—a boy named Isaac Metz, aged about ten years, son of William Metz, of Rye township, Perry county—into the air about twenty-five feet and hurling him a distance of fity feet from the spot where the collision occured. When found the lad was motionless as if dead, but on investigation it was discovered that the terrible fall had not killed him.—*Mifflintown Republican.*

NEW UNITED BRETHREN CHURCH.—Some four gentlemen, Messrs. Noel, Cavender, and two other gentlemen whose names we do not remember, have erected and completed a very handsome Church in West Huntingdon where persons of this denomination can worship. It was a big undertaking for these men, but they went at it in good earnest and now they have a very handsome little church, of which they can be justly proud. It will be dedicated, by Bishop T. Weaver, of the United Brethren Church, of Baltimore, on Sunday, July 14, 1871. Services will commence at 10:30 o'clock in the morning.

A DASTARDLY ACT.—Our old friend, Mr. W. B. White, of Penn township, was attacked while at work in his field, the other day, by a man named Isett, and struck a blow in the face, breaking two or three of his front teeth. It seems that a horse trade was the difficulty. They having traded horses a few days ago, Isett considered himself cheated and wanted to rue bargain, but Mr. White "could'nt see it," thinking that it was a fair and square trade, and after unsuccessful attempts to get possession of the horse his anger got the better of his judgment and he attacked Mr. White as above stated.

Just received—42 days from Havana—Prime Havana Cigars. For sale at McKiernan's, 103 4th street.

A MAN by the name of Bob Houck, residing in East Huntingdon, has been attempting suicide several times within the last week. One day he swallowed a large quantity of laudnum, which had little or no effect; he then endeavored to sever his jugular, but was prevented from doing himself much bodily harm. He subsequently, it is stated, swallowed several ounces of laudnum, but he has not accomplished his purpose up to this time. Too much whiskey, it is presumed, is the root of all the evil.

RAILROAD EXTENSION.—It has been determined to extend the M. C. Railroad from Martinsburg to the "Leather Cracker" ore regions, some 5½ miles, and the contract for grading, etc., has been awarded to the Messrs. Collins, the efficient contractors for that portion of the road now in course of construction. We learn that the road will be completed to Bare's, some two and a half miles beyond McKee's Gap, by the fourth of July, when a grand holliday excursion will be had.—*Hollidaysburg Standard.*

LEG BROKEN.—We are sorry to learn that Henry Naugle, of Bedford township, on the 17th inst., met with a severe accident. On his return home from Berlin, whither he had taken a load of merchandise, his team of four horses ran off down the mountain, and, in attempting to draw the rubber, he slipped in some manner under the wheel, which passed over his left leg badly crushing the bones of the leg below the knee. The bones have been set, and at last accounts Mr. Naugel was doing well.—*Bedford Gazette.*

IN QUOD.—On Sunday evening last, a colored man, a citizen of Altoona, whose name we have been unable to learn, was sent to prison in this place to answer the charge of the theft of two dollars and a silver watch, the property of another Fifteenth Amendment of our town, engaged as hostler at Carmon's livery stable.

LITERARY NOTICES.—THE HOUSEHOLD.—The April and May numbers of a very handsome serial, containing twenty four pages each, devoted to the interest of the American housewife, published by Geo. E. Crowell & Co., Brattleboro, Vt., at $1 00 per year, has been received by us. It is gotten up very handsomely and is in every sense what it purports to be—A HOUSEHOLD TREASURE. The price is so moderate and the amount of reading matter furnished so extensive that we think it extremely cheap. Send for a specimen copy.

HOME AND HEALTH.—This clever little monthly, for June, is with us teeming with good things. The following comprise its contents, viz: Health of our Women; Women's Vice; Origin and Distribution of Epidemics; Contagion of Scarlatina; Longevity; Infallible Remedies; The Two Gardeners—Healthfulness of Charcoal; Carpets, Dust and Disease; The Salubrity of the Bermudas; What becomes of Carbonic Acid; Important Conversation about Eating; Important Facts Concerning Vaccination; Preventing Pitting in Small-Pox; Cigars and Beards—Changes; Snails as Food, etc. Published monthly at $1 50 per year, by W. R. De Puy & Brother, 805 Broadway, New York.

OUR YOUNG FOLKS.—This capital Magazine for July, has come to hand. It contains Jack Hazard and his fortunes, by I. T. Trowbridge; Lost Labors and Death of Prince Henry by James Parton; Dumpy Ducky, (Poem) by Lucy Larcom; Our Traps, by Charles A. Walker; Our Little Indian Boy, by Helen C. Weeks; The Carrying Trade; My Aunts Cow, by H. H.; Little Agnes' Adventure, by Margaret Brenda; and the Streamlet, (Poem) by F. Y. Trowbridge. Published by James R. Osgood & Co., Boston, Mass., at $2 per annum.

EVERY SATURDAY.—This splendid Illustrated Paper has added another feature to its already many points of superiority. It is now stitched and cut so that it can be handled much more readily than heretofore. The illustrations of this journal are of the best kind, and consequently it stands at the head of this class of papers. James R. Osgood & Co., publishers, Boston Mass. Price $4 per annum.

MUSIC can no longer be considered a luxury, and those who spend fabulous sums in purchasing Sheet Music are simply throwing their money away. If our musical friends will take the trouble to procure a copy of *Peters' Musical Monthly*, they will see what their wiser friends are doing—namely, getting better Music at one and two cents a piece than they are buying at thirty, forty, and fifty cents. Each number of this valuable publication contains thirty six pages of Music, printed from full-size music-plates, embracing Sacred and Secular Songs, Duets, Choruses, Polkas, Waltzes, etc., in every issue.

The July number commences Volume VIII., and contains thirteen pieces of Music, neatly bound, that would cost just four dollars and fifty cents in sheet-form. You can get it by mail, post-paid, by sending thirty cents to J. L. Peters, 599 Broadway, New-York.

TO NEBRASKA, CALIFORNIA, AND KANSAS, AND THE B. & M. R. R. LANDS.—The "Burlington Route," so called, lies right in the path of the Star of Empire. It runs almost immediately in the center of the great westward movement of emigration. Crossing Illinois and Iowa, it strikes the Missouri river at three points.

These three points are the gateways into three great sections of the trans-Missouri region.

The Northern gate is Omaha, where the great Pacific road will take you to the land of gold and grapes, sunny mountains, and perpetual summer.

The middle gate is Plattsmouth, which opens upon the south half of Nebraska, south of the Platte river, a region unsurpassed on the continent for agriculture and grazing. Just here are the B. & M. Railroad lands, concerning Geo. S. Harris, the land officer at Burlington, Iowa, can give you all information, and in the heart of them is Lincoln, the State Capital and present terminus of the road.

The Southern gate leads to Kansas, by connections with the St. Joe Road at Hamburg, running direct to St. Joe and Kansas City.

The trains of the Burlington run smoothly and safely, and make all connections. It run the best of coaches, Pullman Palace and Pullman dining cars, and should you take the journey for the journey's sake alone, you will be repaid; or take it to find a home or a farm and you cannot find either better than among the B. & M. lands, where you can buy on ten years' credit, and at a low price. tf.

HARPER'S MAGAZINE.

Notices of the Press.

No more delightful travels are printed in the English language than appear perpetually in *Harpers Magazine*. They are read with equal interest and satisfaction by boys of every grade from eighteen to eighty. Its scientific papers, while sufficiently profound to demand the attention of the learned, are yet admirably adapted to the popular understanding, and designed as much to diffuse correct information concerning current scientific discovery as it could be if it was the organ of the "Society for the Diffusion of Useful Knowledge." The great design of *Harper's* is to give correct information and rational amusement to the great masses of the people. There are few intelligent American families in which *Harper's Magazine* would not be an appreciated and highly-welcome guest. There is no monthly Magazine an intelligent reading family can less afford to be without. Many Magazines are accumulated. *Harper's* is edited. There is not a Magazine that is printed which shows more intelligent pains expended on its articles and mechanical execution. There is not a cheaper Magazine published. There is not, confessedly, a more popular Magazine in the world.—*New England Homestead.*

Farm and Household.

Keep Good Stock On the Farm.

While there has been a great improvement in regard to this, during the past twenty years, it is however, a matter of surprise that so many farmers still content themselves with keeping inferior stock. The cost of fattening a hog of good breed up to a weight of tree hundred pounds is probably from three to five dollars less than what the cost would be in fattening one of inferior breed.

In some instances it would be well for the boys on neighboring farms to unite and make up a sum to buy a pair of "Berkshires," or of some other good breed; that is when the "farmers" neglect to arouse themselves to the importance of keeping nothing but good stock, and persist in sticking to their "old fogyism."

So also in regard to cattle. What a difference there is in the cost of fattening a short horn and fattenig a scrub! Even in the poultry line how immensely superior some varieties are over others! And how easy to get into better variety by simply purchasing a dozen eggs and have them forwarded to you by express.—*Cin. Gaz.*

Gapes in Chickens.

A correspondent to the Cincinnati *Gazette* gives the following as a cure for gapes in chickens. The remedy seems so simple that we give it for the benefit of our readers ·

Put one tablespoonful of wheat into a vial and pour on spirits turpentine to cover the wheat, and keep the vial well corked. Whenever you find symptoms of gapes in a chick; open its mouth and compel it to swollow one or two grains of the saturated wheat. Repeat the operation morning and evening, as long as may be needed, and if commenced in time, it will cure ninetimes out of ten. The above has been a success in my hands and that of my neighbors.

We have seen it stated that fowls affected with gaps could be cured by forcing down the windpipe a little sweet oil through a small glass syringe. The oil kills the worm and relieves the bird at once. A trial of either of the above simple remedies cannot prove hurtful to the fowl, if it does not effect a cure.

How to Raise Large Hogs.

Get a good stock and feed them from their birth with as much as they can eat. It will not do to starve them in the summer and then expect to make the "as fat as butter," by a few weeks' feeding in the fall. A writer on hogs says. The finest porkers I ever saw were kept growing right along through every day of their lives till slaughtered. More is commonly lost in winter than at any other time. See that they have a dry, warm, sheltered place, plenty of good clean litter to keep them warm, a very regular supply of wholesome food (not trash), and a clean place to stay in. With this kind of management, such pigs as you would have next spring would astonish your slipshod, careless neighbors at your "wonderful luck," and if corresponding care were continued through the season, you would show such porkers as would surprise them still more."—*Nile Farmer.*

Pumpkins for Calves.

Through the columns of the *Rural New Yorker* I wish to communicate what I think is valuable to stock growers. We have often been asked the question: 'Do you think pumpkins of much value for stock?" In reply, I wish to give my experience in feeding them. Years since I found out their value as food for milch cows, and their milk producing qualities. This fall I found that, for calves, they were better than anything I ever fed. I only raised three spring calves—one born April 6th, one on the 12th, and on the 25th. They were fed as usual, on skim milk, until pumpkins were ripe, when we began to feed them at the rate of a bushel per day. I weighed them to day at noon, and the three weighed 1,435 pounds.

Care of Btoos and Shoes.

The first thing to be done with any pair of new shoes for farm use, is to set each one on a platter, or an old dinner plate, and pour on boiled linseed oil sufficient to fill the vessel up to the upper edge of the soles. Allow the leather to absorb as much oil as it will for eight hours. Linseed oil should not be applied to the upper leather, as it will become dry, rendering the leather hard and tough. But if the soles be saturated with this oil it will exclude dampness, and enlarge the pegs, so that the soles will never get loose from the upper leather.

If the soles be sewed, the oil will preserve the thread from rotting. We wet the upper leather thorougaly when the boots or shoes are to be put on the feet, so that those parts which are tight may give a trifle, and thus adapt the form to the foot far more saticfactorily than when the upper leather is not wet. Keep them on the feet until nearly dry. Then give the upper leather a thorough greasing with equal parts of lard and tallow, or tallow and neat's foot oil.

If shoes be treated in this manner, and a row of round-headed shoe nails be driven around the edge of the soles, they will wear like copper, and always sit easy to the feet. Boots and shoes should be treated as suggested, and worn a little for several months before they are put on for daily service. This is the true way to save shoe money.

After the Potato Bugs.—Ducks are said to do good service in exterminating the potato bug. A gentleman of Piqua, Ohio, put a pair of Muscovys into his potato patch, which was literally swarming with bugs. The ducks ate the bugs with such avidity that the latter were soon exterminated, and the patch has not since been troubled with them. The ducks did not appear to suffer any ill effects from eating the bugs, and were not slow in "taking in" all they could discover. The duck remedy is certainly worthy of attention.

THE STATE JOURNAL.

THE WEEKLY STATE JOURNAL

Was established at Harrisburg to supply a want long felt in all parts of the State. No effort will be spared to make it an acceptable weekly visitor to the intelligent families of Pennsylvania. It will be devoted to Independent Journalism, will defend and advocate the rights and interests of the people and will assist every effort to advance the religious educational, moral and social condition of humanity. So long as the Republican party continues to be, as it now is, more than any other political organization, the enactor and defender of liberal and impartial laws, the protector of American Labor, the promotor of American Manufactures, and the leader in all great reforms, the Journal will advocate its principles and defend its policies.

The mining and manufacturing interests of the State, and the rights of the laboring men employed therein, shall always find favor in these columns. National and State measures proposed and enacted for the protection of American industry will ever be urged, advocated, and defended. The latest news, political, commercial, agricultural and social from all parts of the world, will be published weekly.

The proceedings of the Legislature throughout the session will be reported fully and promptly, so that the readers of the Journal may know what is transpiring at the State Capital. The Weekly Journal, like the Daily, is a first-class newspaper, thoroughly sound in politics, education, temperance and religion. It is a good agricultural paper, a good educational paper, a good temperance paper, a good religious paper, a good family newspaper.

The Journal is published by the "Harrisbnrg Printing Association," a corporation chartered by the Legislature, and composed of gentlemen of ample means, whose sole purpose is to publish a first class newspaper for Pennsylvania. The best talent and the ablest writers have been employed to conduct the affairs, and contribute to the columns of The Journal.

Send for specimen copies of Daily and Weekly.

Medical.

THE KIDNEYS.

The Kidneys are two in number, situated at the upper part of the lion, surrounded by fat, and consisting of three parts, viz: the Anterior, the Interior, and the Exterior.

The anterior absorbs. Interior consists of tissues or veins, which serve as a deposit for the urine and convey it to the exterior. The exterior is a conductor also, terminating in a single tube, and called the Ureter. The ureters are connected with the bladder.

The bladder is composed of various coverings or tissues, divided into parts, viz: the Upper, the Lower, the Nervous and the Mucous. The upper expels, the lower retains. Many have a desiae to urinate without the ability; others urinate without the ability to retain. This frequently occurs in children.

To cure these affections, we must bring into action the muscles, which are engaged in their various functions. If they are neglected, Gravel or Dropsy may ensue.

The reader must also be made aware, that however slight may be the attack, it is sure to effect the bodily health and mental powers, as our flesh and blood are supported from these sources.

Gout, or Rheumatism.—Pain occurring in the loins is indicative of the above diseases. They occur in persons disposed to acid stomach and chalky concretions.

The Gravel.—The gravel ensues from neglect or improper treatment of the kidneys. These organs being weak, the water is not expelled from the bladder, but allowed to remain; it becomes feverish, and sediment forms. It is from this deposit that the stone is formed, and gravel ensues.

Dropsy is a collection of water in some parts of the body, and bears different names, according to the parts affected, viz: when generally diffused over the body, it is called Anasarca; when of the abdomen, Ascites; when of the chest, Hydrothorax.

Treatment.—Helmbold's highly concentrated compound Extract Buchu is decidedly one of the best remedies for diseases of the bladder, kidneys, gravel, dropsical swellings, rheumatism and gout affections. Under this head we have arranged Dysuria, or difficulty and pain in passing water, Scanty Secretion, or small and frequent discharges of water; Strangury, or stopping of water; Hematuria, or bloody urine; Gout and Rheumatism of the kidneys, without any change in quantity, but increase in color, or dark water. It was always highly recommendee by the late Dr. Physick, in these affections.

This medicine increases the power of digestion, and excites the absorbents into healty exercise by which the watery or calcareous depositions, and all unnatural enlargements, as well as pain and inflammation, are reduced, and it is taken by men, women and children. Directions for use and diet accompany.

Philadelphia, Pa., Feb. 25, 1867.

H. T. Helmbold, Druggist:

Dear Sir:—I have been a sufferer, for upward of twenty years, with gravel bladder and kidney affections, during which time I have used various medicinal preparations, and have been under the treatment of the most eminent Physicians, experiencing little relief.

Having seen your preparations extensively advertised, I consulted with my family physician in regard to using your Extract Buchu.

I did this because I had used all kinds of advertised remedies, and had found them worthless, and, some quite injurious; in fact, I despaired of ever getting well, and determined to use no remedies hereafter unless I knew of the ingredients. It was this that prompted me to use your remedy. As you advertised that it was composed of buchu, cubebs and juniper berries, it occurred to me and my physician as an excellent combination, and, with his advice after an examination of the article and consulting again with the druggist, I concluded to try it. I commenced its use about eight months ago, at which time I was confined to my room. From the first bottle I was astonished and gratified at the beneficial effect, and after using it three weeks, was able to walk out. I felt much like writing you a full statement of my case at that time, but thought my improvement might only be a temporary, and therefore concluded to defer and see if it would effect a perfect cure, knowing then it would be of greater value to you, and more satisfactory to me.

I am now able to report that a cure is effected after using the remedy for fiive months.

I have not used any now for three months, and fell as well in all respects, as I ever did.

Your Buchu being devoid of any unpleasant taste and odor—a nice tonic and invigorator of the system. I do not mean to be without it whenever occasion may require its use in such affections.

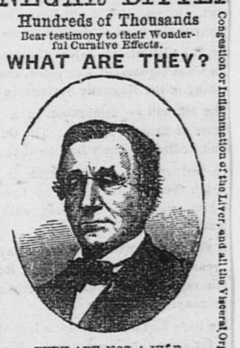
A GREAT MEDICAL DISCOVE

Dr. WALKER'S CALIFORNIA

VINEGAR BITTE

Hundreds of Thousands
Bear testimony to their Wonderful Curative Effects.

WHAT ARE THEY?



FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no
a circular.

Congestion or Inflammation of the Liver, and all the Visceral Organs.

THEY ARE NOT A VILE

FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Sp
and Refuse Liquors doctored, spiced and s
ened to please the taste, called "Tonics," "Ap
ers," "Restorers," &c., that lead the tippler
drunkenness and ruin, but are a true Medicine,
from the Native Roots and Herbs of California,
from all Alcoholic Stimulants. They are
GREAT BLOOD PURIFIER and A L

Invigorator of the System, carrying off all poiso
matter and restoring the blood to a healthy cond
No person can take these Bitters according to d
tion and remain long unwell.

$100 will be given for an incurable case, prov
the bones are not destroyed by mineral poiso
other means, and the vital organs wasted beyon
point of repair.

For Inflammatory and Chronic Rheu
tism and Gout, Dyspepsia, or Indigest
Billious, Remittent and Intermittent Fev
Diseases of the Blood, Liver, Kidneys,
Bladder, these Bitters have been most suc
ful. Such Diseases are caused by Vitia
Blood, which is generally produced by derange
of the Digestive Organs.

DYSPEPSIA OR INDIGESTION,
ache, Pain in the Shoulders, Coughs, Tightness of
Chest, Dizziness, Sour Eructations of the Stom
Bad taste in the Mouth, Billious Attacks, Palpita
of the Heart, Inflammation of the Lungs, Pain in
regions of the Kidneys, and a hundred other pa
symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the
pid liver and bowels, which render them of unequa
efficacy in cleansing the blood of all impurities,
imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter,
Rheum, Blotches, Spots, Pimples, Pustules, Boils,
buncles, Ring-Worms, Scald-Head, Sore Eyes, Ery
elas, Itch, Scurfs, Discolorations of the Skin, Hu
and Diseases of the Skin, of whatever name or na
are literally dug up and carried out of the system
short time by the use of these Bitters. One bottl
such cases will convince the most incredulous of t
curative effect.

Cleanse the Vitiated Blood whenever you find
impurities bursting through the skin in Pimples, Er
tions or Sores; cleanse it when you find it obstruc
and sluggish in the veins; cleanse it when it is f
and your feelings will tell you when. Keep the bl
pure and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in
system of so many thousands, are effectually destr
ed and removed. For full directions, read caref
the circular around each bottle, printed in four l
guages—English, German, French and Spanish.
